PROFILE

Computer Science student pursuing B.Tech and IIT Madras BS in Data Science with experience in React, Python, SQL, FastAPI, and MySQL. Skilled in web development, data analysis, problem solving, and stakeholder communication, with an interest in technology-driven business solutions

EDUCATION

B.Tech, Computer Science & Engineering | Sridevi Women's Engineering College | CGPA: 7.97/10 | 2022–2026
BS in Data Science and Applications (Diploma Level) | IIT Madras | Currently Enrolled
Class XII | Narayana Junior College | 92.9%

TECHNICAL SKILLS

Frontend: HTML, CSS, JavaScript, React | Backend: FastAPI
Programming: Python, C | Databases: MySQL, SQL
Tools: Git, GitHub, Streamlit, Power BI, Excel
ML/Data: Pandas, NumPy, Scikit-learn, TensorFlow, LSTM

EXPERIENCE

Junior Developer Intern | Credencer Technologies | May 2026 – Present

- Developing responsive web applications using React, HTML, CSS, and JavaScript.
- Contributing to Naari Bazaar, a women-centric marketplace platform using React, FastAPI, and MySQL.
- Collaborating on frontend development, API integration, and feature implementation.

Software Development Intern – Python | Console.Success | Dec 2025 – Jan 2026

- Developed Python workflows and performed data processing using Pandas and NumPy.

PROJECTS

Naari Bazaar | React, FastAPI, MySQL

- Developing a marketplace platform connecting customers with women-led service providers.
- Built responsive UI components and integrated frontend with backend APIs.

Currency Exchange Rate Prediction System | Python, TensorFlow, LSTM, Streamlit

- Developed an LSTM forecasting model achieving ~90% prediction accuracy.
- Deployed an interactive dashboard on Streamlit for real-time visualization.
